### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a method for inhibiting fouling or a method for introducing a compound into a pyrolysis furnace coil as claimed in which a heat treated phosphorus-sulfur compound exhibiting a  $^{31}\text{P}$  NMR peak between about 93 and about 97 ppm contacts heat transfer surfaces or in which a phosphorus-sulfur compound that has been heated at a temperature from about 160°C to 500°C for about 5 minutes to about 3 hours is introduced into the pyrolysis furnace coil. None of the cited prior art suggests a heat treatment step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
